Laramie County Library System Now Offering Check Out of Nintendo Switch Games

Laramie County Library System is now offering check out of Nintendo Switch games, including Animal Crossing, Super Mario Bros. U Deluxe, and Zelda: Breath of the Wild. Like other videogames in the library's collection, Nintendo Switch games can be checked out for a cost of \$2.00 with a loan period of four days. Up to two games at a time can be checked out on one library card. The games are all located in the Audiovisual section on the first floor of the library and can be checked out at any self-checkout station, or by placing a hold and utilizing the library's curbside pick-up service.

Bobby Phillipps, the Audiovisual Coordinator for Laramie County Library System, spearheaded the effort and worked with the library's Teen Services Coordinator, Andrew Asquith, who created an entirely unique design on the 3D printer to keep the game cartridges in the library's locking checkout cases.

"Many of our patrons were asking us to carry Nintendo Switch games," Phillipps says, "and we're so excited to be able to provide them. We hope these games make life a little brighter for those staying home for work or school, as well as for those who want to try out a game before shelling out full price to buy it. The library will continue adding Switch games to the collection, and we will be getting games for the new PlayStation and Xbox consoles that come out in November."

Laramie County Library System hopes that the community will make use of and enjoy the addition of Nintendo Switch games to the collection. For those that do not yet have a library card, signing up for a card is completely free and the process can be completed in less than ten minutes. For library card requirements, please visit [LaramieCountyLibrary.org](https://www.laramiecountylibrary.org)
