

Easy Bird Kite!

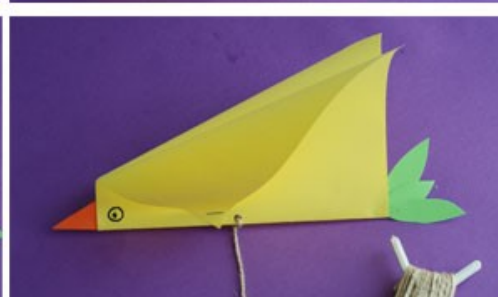

Materials Included:

- 8x11.5 paper
- Kite String

Needed Materials

- Tape or Stapler
- Scissors or Hole Punch

KITE!

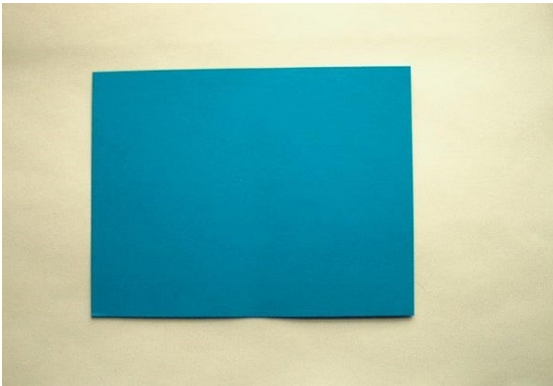

Moderate Difficulty

Materials Included:

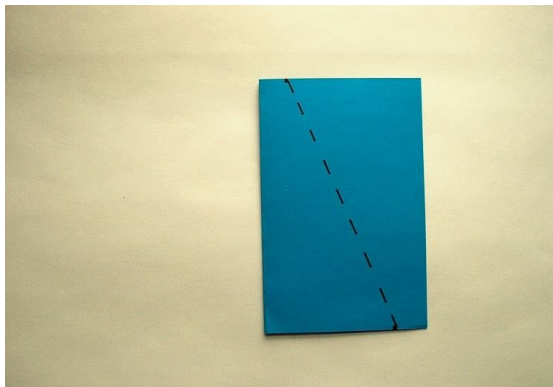

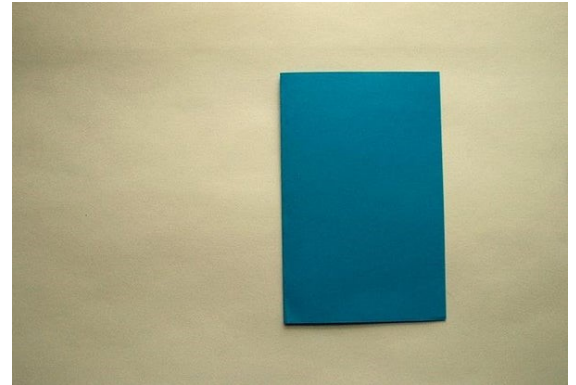

- 8x11.5 paper
- Wooden Stick
- Kite String
- Kite Tail

Needed Materials

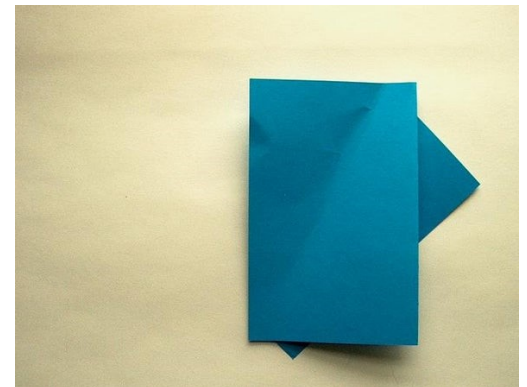

- Tape
- Scissors

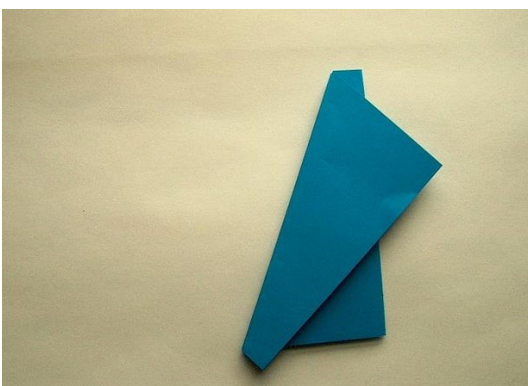

1) Start with your piece of paper:
Fold it in half.

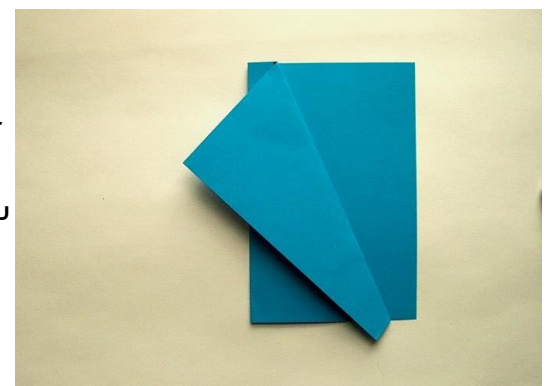

2) Mark a point on the top of the paper about one inch from the fold.
Mark a point on the bottom of the paper about one inch from the open side.

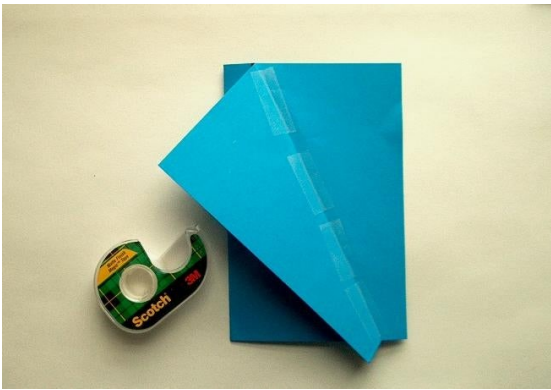

3) Imagine, or draw, a line connecting these two dots.
Fold the top corner of the paper down along the line that you've just created.

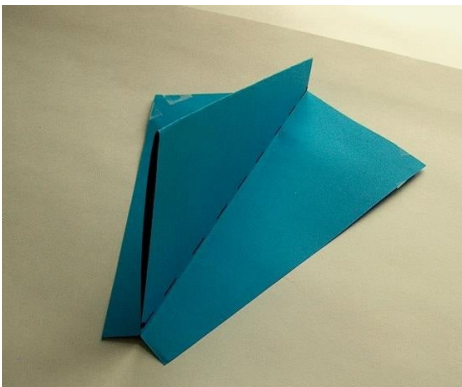

4) Next, flip the paper over and fold the other side down to match the side you just folded.

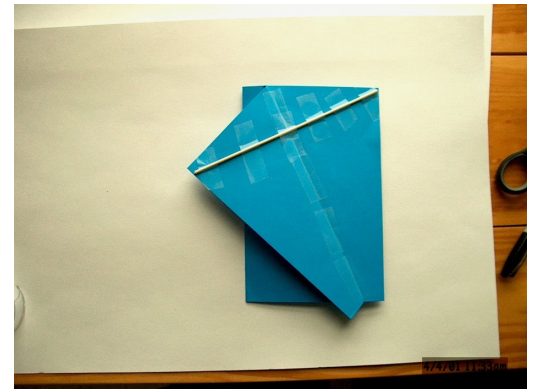

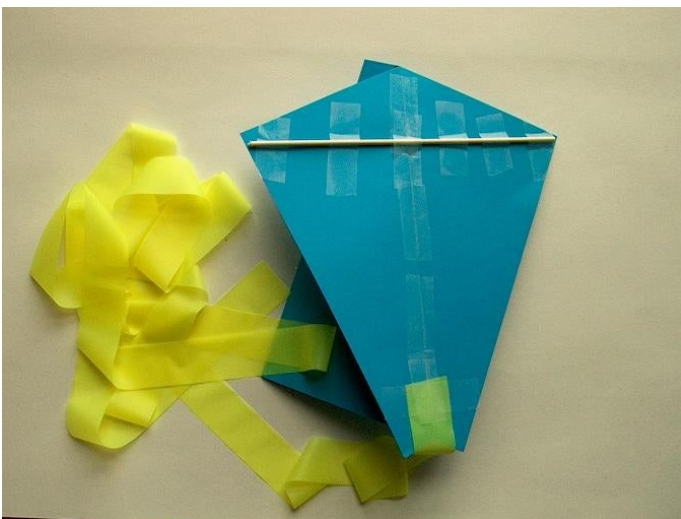

5) Flip the paper back over so that it looks the way it did in Step 4.

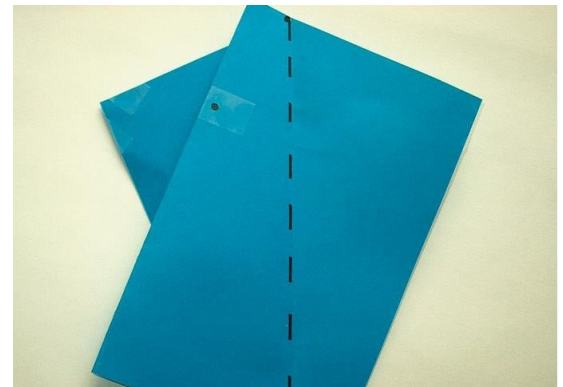

Tape along the middle seam.

7) Flip the kite back over and straighten the "spine".

6) Lay a skewer across the kite, as shown, and tape it in place. You'll probably have to cut the skewer down to size with your scissors.

8) Use your hole punch or scissors to make a hole in this spot.

Tie your kite string through this hole. Make sure to use a good knot!

Tape a length of ribbon to the back of the kite, at the bottom.
