

DIY LIGHTSABER

Included Materials:

- Clear plastic tube
- Cardboard tube
- Reflector Cap
- Sandpaper
- Sharpie

- Craft Foam
- Silver Duct Tape
- Gold Duct Tape
- Grey Duct Tape

Materials Needed:

- Glue or Hot Glue
- Scissors

**WARNING: THESE LIGHTSABERS ARE NOT FOR ROUGH PLAY.
LIGHT BONKING AND FANCY JEDI SWINGING IS ADVISED.**

Idea and more instructions found at: <https://www.instructables.com/Easy-5-Lightsabers/>

Instructions:

-Use the included Sharpie to color in the plastic tube.

-Let dry.

-When dry use the sandpaper to diffuse the color on the tube.

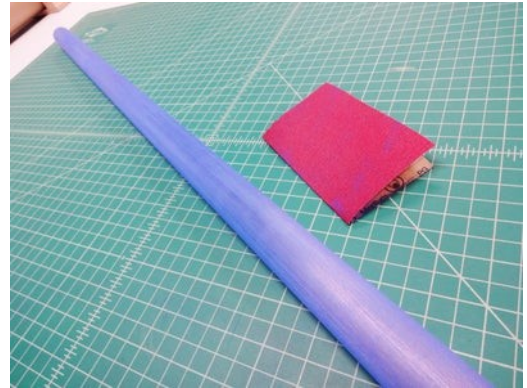

-Take mini flashlight and wrap it with duct tape so that it can fit snugly in the cardboard tube.

-Using the craft foam, silver and gold duct tape design the lightsaber hilt.

-Several example are shown but feel free to create your own.

-Insert plastic tube into cardboard tube.

-Place reflector on the opposite end.
